

Le applicazioni da avere sul Nokia n95

di Paolo Franzese

- [Fring](#): Free mobile VoIP app with Skype, Google Talk, ICQ, MSN Messenger and Twitter support
- [SlingPlayer Mobile](#): Stream and control your SlingPlayer
- [The Filter](#): Navigate your music in style and create on the fly playlists
- [Emoze](#): Full Outlook push sync – who needs a blackberry?
- [Nokia Sports Tracker](#): Keep track of your training schedule
- [WWIGO](#): Webcam Wherever I Go – works both ways, using the N95's camera
- [Movino](#): Collection of open source for broadcasting/streaming to smartphones
- [Calcium](#): One of my personal favs, the best calculator for S60 handsets
- [Lifeblog](#): blog and share your photos on the move
- [Shozu](#): Post your photos and videos to multiple sites
- [Gizmo](#): Make calls over WiFi to save money
- [Jaiku Mobile](#): Alternative to twitter
- [MyStrands](#): Great music player and discovery tool
- [Handy Taskman](#): Adds several useful toos to your Nokia phone
- [RotateMe](#): Give the iPhone a run for its money with this cool screen orientation tool
- [Screenshot For Symbian](#): Save your screenshots in popular image formats
- [EMTube](#): Another fav. Improve the way you watch YouTube videos on your phone
- [Opera Mini](#): Great browser for smartphones
- [Flip Silent](#): When a call comes in, go into silent mode just by flipping your phone!
- [Shutup](#): Another silence/flipping service
- [Wavelog](#): Blogging service for S60
- [Dr Kukka's Inclinator](#): No practical use other than to show off to mates. Tells you when you are tilted....
- [QIK](#): Stream videos from your N95 to the web
- [Nokia Internet Radio](#): A....radio service
- [EXTGPS](#): Use the N95 GPS with your laptop via bluetooth

Segnalate le vostre applicazioni...
